PROFESSIONAL SUMMARY

Motivated Software Engineering undergraduate with strong proficiency in multiple programming languages and mobile and web development technologies. Experienced in freelancing for clients and personal projects, demonstrating analytical thinking and technical problem-solving abilities. Passionate about developing scalable applications and eager to enhance industry skills through an internship opportunity.

SKILLS

- Programming Languages: Java, JavaScript, C, C++, Python
- Web Development: HTML, CSS, React, Node.js, PHP, XAMPP
- Mobile Development: Android, Flutter, React Native
- Database Management: MySQL, MongoDB, Firebase, SQL Lite
- Software Development: Agile, OOP, RESTful APIs
- Tools & Technologies: VS Code, Android, Postman, PyCharm, Cisco Packet Tracer, Figma, Git, GitHub

EDUCATION

Bachelor of Science (Hons) in Software Engineering | Best Semester GPV: 4.00 2022 - 2026
Colombo International Nautical and Engineering College, Malabe (CINEC), Sri Lanka

- **Coursework:** OOP Programming, Data Structures & Algorithms, Advanced Web Development, Mobile App Development, Advanced Database Systems, Operating Systems, Probability & Statistics, Computer Networks.

PROJECTS

CarZone Lanka , Sri Lanka (Back-End Developer) | January 2025 – Present

- Developed a dynamic car sales website using **HTML, CSS, JavaScript, and Node.js**.
- Integrated **External APIs** to enhance functionality and user experience.
- Collaborated within an **Agile team**, conducting code reviews and pair programming.
- Designed an intuitive **UI/UX**, implemented security measures, and optimized performance for fast load times and smooth interactions.

Mahaweli Authority System D, Sri Lanka (Full-Stack Developer) | December 2024 – Present

- Created a smart administrative system to automate the Mahaweli Authority's workflow.
- Utilized **Flutter** for cross-platform mobile development, **Firebase** for real-time database management, and **SQLite** for local data storage.
- Designed and implemented the application architecture for seamless data synchronization and developed user-friendly interfaces for efficient administration.

EcoOcean E-Commerce Website (Front-End Developer) | August 2024 – September 2024

- Developed the EcoOcean e-commerce website to raise funds for ocean conservation, featuring a user-friendly interface for browsing and purchasing eco-friendly products.

- Utilized **HTML, CSS, JavaScript, PHP, and XAMPP Server** to design the website layout.

Coffee Shop Website | Personal Project | Completed

- Created a web-based coffee shop website to showcase products and services using **HTML, CSS, JavaScript, and Bootstrap**.
- Ensured cross-browser compatibility and optimized performance through user testing and feedback.

CRUD Website (MERN) | Personal Project | Completed

- Developed a full-stack CRUD application using the **MERN stack (MongoDB, Express.js, React, Node.js)** to demonstrate full-stack development skills.
- Designed the database schema with MongoDB and implemented back-end services using Express.js and Node.js.
- Created a seamless front-end interface with React, ensuring an optimal user experience.

Admin Dashboard | Personal Project | Completed

- Designed and developed an admin dashboard using **HTML, CSS, and JavaScript** for managing administrative tasks.
- Featured an intuitive layout with interactive components like charts, tables, and forms for efficient data management.
- Ensured responsiveness and cross-browser compatibility for optimal performance.

Hotel Website | Personal Project | Completed

- Created a hotel website to showcase accommodations, amenities, and services using **HTML, CSS, and JavaScript**.
- Ensured cross-browser compatibility and optimized performance for user satisfaction.

CERTIFICATIONS

- **Google:** Build a Dynamic UI for Websites
- **Great Learning:** Front End Development HTML

PUBLISHED RESEARCH ABSTRACTS

- **Enhancing Financial Data Security in AI-Driven Cloud Platforms: A Comparative Study of Fully Homomorphic Encryption and Conventional Encryption Techniques**
The 5th International Research Symposium (CIRS – 2024)
A.S.N.Silva^{#1}, Chanudhi Aluthge^{#2}.
- **Emotion Responsive Smart Fabrics: Monitoring and Analyzing Stress Levels and Depression Status in Patients.**
The 4th International Research Symposium (CIRS – 2023)
